

# AF ELECTRIC VSETT VSETT 8

The Vsett 8 electric scooter offers superior design, comfort and extra power that other well-known electric scooter manufacturers can only dream of. Adapt the electric scooter to your needs - the height of the handlebars can be adjusted according to your height and preferences. The extended step board provides better balance and increases riding comfort. VSETT is the only model on the market where the turn signals are placed directly under the thumb. The electric scooter VSETT can be turned on using a special NFC chip, the key of which can also be copied to the memory of a smartphone or smart watch if desired. Drive everywhere as if on smooth asphalt - strong shock absorbers and durable 8.5-inch tires perfectly withstand various surface irregularities. You can drive on sand, asphalt, hills, rocks and through potholes and enjoy excellent driving comfort.
